DETAILED ACTION

1. This is the second office action for application No. 10/755,881. This application contains 13 claims numbered 1-6, 8 and 11-16. Claims 7, 9 and 10 have been canceled. Claims 12-16 were withdrawn.
2. Amendment to specification and drawings filed 2/14/05 have been entered and approved.
3. Claims 1-6 and 8 and 11 are allowed. Claims 12-16 are also allowed with the following reasons:

Claim 11 is rewritten in independent form with the limitations of the base claim (claim 1), which is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 12-16, directed to the species of Figures 6-9 and the species of Figures 10-11 are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Alan Kamrath on June 9, 2005. The application has been amended as follows:

Claim 15, lines 1-2, "wherein the " has been deleted.

REASONS FOR ALLOWANCE:

5. The following is an examiner's statement of reasons for allowance: One major difference not found in the art in claims 1 and 11 with respect to the prior art is the holder comprising a pivotable post mounted on the combination seat of the base having an inside formed with an insertion hole and an insertion bore, the pivotable post having a lower end inserted into the insertion hole of the combination seat and the rotation of the bolt locked and urged on the lower end of the post (claim 1); and the urging rod of the clamp is extended through the second section of the support rack and has a first end provided with an urging disk facing the sucker and a second end formed with a through hole (claim 11) in combination with other limitation which is not found in the art. The closest prior art, Watson (US 3,020,017) discloses a suction cup holder for supporting and maintaining an article of equipment in a desired position or attitude

which either singularly or in combination, fails to anticipate or render obvious the above claimed limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
